

Chmacum School District #49 (BEN 145252) does not have an approved 498 on file, and therefore cannot submit BEAR forms using the new online BEAR system.

For this reason we were told by USAC Client Service Bureau on 10/25/2016 that we need to file an invoice deadline extension request for each of the following FRNs:

2866396
2868555
2867816
2868055
2868275
2868755
2867015

This was attempted using the online BEAR extension request system at 9:37 PM 10/27/2016. Online BEAR form website generated automatic denial of each extension request due to timestamp, reporting that invoice extension request had to be submitted prior to the last date to invoice. Form denial advised that the next step in the process is to request waiver from the FCC under program rules, because USAC cannot provide this waiver.

Waiver is therefore requested to allow USAC or FCC to authorize invoice extensions on the listed FRNs so that once Chimacum School District's Form 498 has been approved and 498 ID provided we can then submit online BEAR forms and invoice within the extended timeframe.

Attached find timestamped printouts (pdf) of the denied invoice extension requests for these FRNs

Thank you
